

STOP ... MINING FOR GOLD ON THE INTERNET !! START OFFERING PICKS AND SHOVELS TO THE MINERS !!

It's TRUE... Read this little-known truth and understand the **POWER** of the Internet!

In 1848 gold was discovered in Sutter's Mill in California. Within two years, over 40,000 eager entrepreneurs seeking their fortunes made their way to this little town in the middle of nowhere. Of those 40,000 adventurous souls, around 5% managed to barely make a living mining for gold ...less than 1% ever became wealthy.

Sounds almost like the Internet, doesn't it?

BUT ... another group of people virtually ALL became wealthy in the gold fields of California.

These were the Shopkeepers.

These enterprising individuals instinctively knew that striking it rich mining for gold was a crapshoot at best. But they also knew the miners couldn't mine unless they had their picks and shovels to strike gold.

Now, what does all this have to do with *gmt!* and the Internet? Well *gmt* has the picks and shovels for you and can help you to be a shopkeeper.

DON'T DIG FOR GOLD...

SELL THE PICKS AND SHOVELS TO INTERNET GOLD MINERS!
